

# SUPPLY CHAIN MANAGEMENT AND PROCUREMENT 4.0

The participants will broaden their knowledge about current megatrends, industry 4.0/ IoT, big data, risk management, shorter life cycles, 3D printing/additive manufacturing, augmented and virtual reality, scarcity of resources, triple bottom lines and their impacts on our global supply chains and supply networks.

**TARGET GROUP:** SCM/procurement executives and top-managers looking for ideas how to adapt their current business models to make them "future-proof"

**TRAINING METHODS:** Presentations, group work, many case studies/practical company examples and some short movies to create a much better understanding of what technology is already capable of nowadays.

**TRAINER:** Prof. Dr. Karsten Machholz
